

RESIDENCE DES CHENES IN FRIBOURG

views: Gebert - 1255

Located on high ground, the residence des Chênes offers an outstanding view of the city of Fribourg. The 70 residents of this medico-social facility each live in an individual residence in keeping with the philosophy of the brand, which defines itself primarily as a place to live. The project comprises the renovation of facades, various interior works including sanitary facilities and the provision of an additional floor and roof terrace. The construction site has been organized in several phases guaranteeing the operation of the existing facility.
