The Médran project envisages the construction of a luxury 5-star complex in the village center of Verbier comprising a hotel, hotel residences, private apartments and a commercial center.

The Hotel W Verbier has 140 rooms and suites, a luxury spa and various conference rooms and restaurants. A thorough analysis of the entire design and construction process upon commencement of the construction works, undertaken by all the design team and its partners, allowed a balance to be struck between the client's qualitative and financial requirements, assured by a cost guarantee insurance.
