## SECONDARY SCHOOL IN CHESEAU S/LAUSANNE

Situated within the Lausanne urban area along the LEB regional train line, the city of Cheseaux-s/Lausanne has undergone significant development over the last decades. The construction of the secondary school provided an opportunity to build a new village center. The school building and the double gymnastics hall are arranged in an aysymmetrical manner around a sports field and meadows. This enables the creation of an urban park landscape that is closely related to its environment: the former school and municipal building, both renovated, the tree-filled gardens of the residential buildings and the neighbouring mansion.

**CLIENT**  
Municipality of Cheseaux-s/Lausanne

**ARCHITECT**  
G. Mann and P. Capua Mann, Lausanne

**TEKHNE SERVICES**  
Design competition 1st prize  
Design team coordination  
Architect's partner  
Quality, cost and time management  
Construction project management

**DATE | COST**  
2005-2007  
CHF 19 million

**DIMENSIONS**  
Floor area 4,700 m<sup>2</sup>  
Gross volume 24,300 m<sup>3</sup>
