## FERRING INTERNATIONAL CENTER AT ST-PREX

The Danish group Ferring Pharmaceuticals regrouped its activities and headquarters at St-Prex in order to benefit from favorable conditions in Switzerland in general and the Lake Geneva region in particular. The company thus intends to meet a rapidly-growing market demand. The building combines various functions: group administration, production and quality control laboratories, packaging and storage. The large 100,000 m<sup>2</sup> site ensures capacity for any future extension. The complexity of the project presented a challenge for project management and multidisciplinary coordination - GMP standards for pharmaceutical production, financial targets and tight deadlines.

**CLIENT**  
Ferring International Center,  
St-Prex

**ARCHITECT**  
dolci architectes, Yverdon-les-  
Bains
